

Become a Hypnotherapist

The Prospectus

Become one of the best

Let me guide you

Your journey begins here! Break free from routine!

On my course I will teach you to walk the walk.

Theory is important but ability to do the job is crucial.

You will have the skill set to become one of the best.

Arachnophobia

An example of one of the phobias you will be able to help people overcome.

Dawn Rowley.*

Smoking

Improve people's health by helping them quit smoking

You will do all this and more!

The School and John

You are reading this prospectus so I am going to assume you have an interest in Hypnotherapy and perhaps looking to change career.

I started in 2003 after losing my job and have never looked back. When I started my school in 2006 after treating thousands of clients, I wanted my course to be fully inclusive with everything I think new Hypnotherapists need. Not only to get started, also with ongoing help and support throughout your new career.

I also believe you should get everything included in your training that is necessary to start your business, so that is how I designed my training course.

I am passionate about helping people, friendly, approachable and who genuinely wants all his students to succeed and become excellent hypnotherapists.

I have the practical experience of treating clients with a range of problems and I want to impart this knowledge.

John Dewar's School of Hypnotherapy is the perfect place for you to begin your new career.

The school was established in 2006 and adheres to the code of ethics by the registering body the General Hypnotherapy Register (GHR) and the boards governing body the General Hypnotherapy Standards Council (GHSc).

The Clinical Hypnotherapy Diploma courses offered are Assessed and Accredited at Full Practitioner Level.

Choose my school and be sure you are with an accredited training provider.

On completion you will be eligible for registration with the GHR (Fees apply) and be awarded the General Qualification in Hypnotherapy Practice (GQHP).

This gives you professional status and assures potential clients you are properly trained and registered.

Preferential insurance rates are available to members. Regular newsletters keep you current with important information and updates on government legislation.

What is it like?

From the minute you make your decision to join my course I keep in touch with regular updates and joining information.

When we begin there is great focus on practical skills and you will be taking your new friends into and out of the Hypnotic trance within one hour of starting. **Practice makes perfect and that is what we do, practice, practice & practice.**

You like many others will go far beyond what you thought you could achieve.

We make it a fun experience; no death by PowerPoint, we get stuck in and live the experience. You will laugh and might even cry but this will be a great enjoyable training course.

Your confidence will increase, your communication skills will improve and you will want to do more, believe me this will be life changing.

Each day will find you doing something different in preparation for your new career.

Many past students from all over the globe have gone on to develop either a full or part time business making the kind of income they set as a goal and many earning beyond their initial goal. Driving the cars that previously were beyond their aspirations. Holidays in sunny climes.

You are the only limiting factor.

You are in control.

You decide what you do and when you do it. Work when you want to, have time to do enjoyable things with your family or friends. No more bosses to worry you. You are your boss.

The most important thing is to enjoy the training, have a laugh, join in the excitement and become the best you can be. I am with you 24/7 before during and after the course (except Saturday nights) fully supporting your needs.

*A group of happy students enjoying an alfresco lunch, well it was a nice hot day.

Learning Process.

This is a practical course and although there is some theory, which is necessary for your knowledge, most of the learning is done by watching demonstrations and then practicing yourself?

We walk the walk so to speak.

My teaching style is described by many past students as relaxed, informal and professional. No suit and tie for me, I left that behind many years ago.

Practical skills training are an essential part of our training and you will be putting your skills into practice many times during the duration of the course. There is no better way learning than walking the walk.

Each technique will be presented in a demonstration on a volunteer student from the group. You will then practice under supervision in small groups. Followed by a debrief and time to chat about how it was for you.

We do this every day to take you from complete novice to a confident practitioner.

Although there are no exams I am continually assessing as you practice, this enables us to ensure that you are competent. We need “issues or “difficulties” to practice

on and many students have had multiple “difficulties” resolved during the course and you could look on that as an added value. Please rest assured that our confidentiality regulations apply to the training course.

Options

To make learning this amazing skill even easier there are two great ways of learning hypnotherapy with me John...

Option One 3 Week Intensive

The 3-week intensive plan is the perfect option for those who want to get going quickly and really get to grips this amazing technique fast.

The ideal choice for those between positions or those able to allocate the time without disrupting your life.

- ✓ Start your new career quickly
- ✓ Recover your investment fast and generate an income stream
- ✓ Daily practice sessions on a continuous basis
- ✓ Learn at an accelerated pace
- ✓ Bond and grow within a group setting

Option Two Weekends

Not everyone wants to learn so quickly and with family and work commitments, the weekend plan may be more suitable.

This covers the exact same syllabus as the intensive course yet is completed over 7 months.

See the website for more details:

johndewar.co.uk/prospectus/

- ✓ Flexible financial planning
- ✓ Pay monthly as you learn
- ✓ Plan your new business as you develop
- ✓ Opportunity for extra practice between modules
- ✓ More research time, reading or watching recordings
- ✓ Continue working at current occupation

What you will learn:

Each of our courses is totally bespoke to the individual students on them to aid their learning and potential.

In doing this the day-to-day lessons can vary greatly so students gain the knowledge they need, when they need it, and don't have to wait.

We will however cover everything included below:

- How to hypnotise clients' with a variety of trance inductions, plus trance deepening utilising direct, indirect & kinaesthetic methods. Test depth of trance, covert & overt.
- Trance termination. A variety of methods to re-alert client safely and peacefully.
- How and when to use PHS (Post Hypnotic Suggestion).

*an interesting read

It is not a prerequisite to read any of the books prior to the course and in fact I think it is often better to commence training without any preconceived ideas.

Our Venue

The school operates its training courses from

The Holiday Inn
Olympus Way
Tachbrook Park
Leamington Spa
CV34 6RJ

Tel 01926 331 517
